WELCOME

The University of Surrey is set in the vibrant and historic town of Guildford, in the heart of south-east England.

We are a global community of ideas and people, dedicated to life-changing education and research. With a beautiful campus and culturally diverse community, the University provides exceptional teaching and practical learning to inspire and empower our students for personal and professional success.

Since our founding, the University has strived to shape the future for the better. From providing greater access to further and higher education in the late 19th-century, to tackling today's sustainability challenges by working to reduce our impact on the environment, economy and local community, we create change and positively impact society.

SHAPING YOUR FUTURE

At Surrey, we want to shape the world for the better. If you're considering postgraduate study, it's likely you do too.

At the heart of our university is a strong, diverse and supportive community. Together we embrace change, think creatively and work collaboratively to tackle the challenges of our time. We know that ideas can change lives, and we're passionate about bringing these ideas to life.

Whether you want to study business, engineering, literature or nursing, the pursuit of knowledge improves the world we live in. A masters from Surrey gives you the edge in building a better future – for yourself and for society.

Our 2,300+ links with industry offer fantastic opportunities for personal and professional growth. These connections will seamlessly connect you with the world of work.

Surrey is home to outstanding academic minds, many of whom are active researchers, keeping our courses industry-relevant and giving you a head start once you graduate.

A masters from Surrey will give you the tools, skills and knowledge you need to achieve your academic and career ambitions and together we can shape the future.

CAREER PROSPECTS

For many students, graduating from Surrey has allowed them to excel in their chosen fields. Our professional and social links span the globe, with many of our graduates making valuable contributions to international research, industry and the arts.

REALISING YOUR CAREER AMBITIONS

Study at Surrey and you'll be joining a community of dedicated and passionate researchers and academics who'll help shape your future. There are many careers, places and opportunities in which you could thrive with a Surrey degree.

GRADUATE PROSPECTS

At Surrey, we strive to make our courses industry-relevant, making our graduates appealing to prospective employers. As a result, **95 per cent of our taught postgraduates are in work or further education within 15 months of graduating** (Graduate Outcomes survey 2022, HESA).

Recent postgraduate students have secured jobs at KPMG, AIG, NHS, Legal & General and Deloitte, among many more.

CAREER SUPPORT

As a Surrey student, you'll benefit from the support of our Employability and Careers team, who were awarded Best University Careers/Employability Service in the UK in the National University Employability Awards 2022. We offer careers information and guidance throughout your time as a student, as well as up to three years after you graduate. As a postgraduate, you'll have more specific skills and a greater depth of knowledge to offer potential employers.

PLACEMENT OPPORTUNITIES

A number of our postgraduate courses offer you opportunities to gain practical experience and build your connections in industry. With more than more than 2,300 companies in our professional network, the University of Surrey is in an excellent position to help you reach your professional potential.

FACULTY OF ENGINEERING AND PHYSICAL SCIENCES

On several courses, you'll get the chance to apply your knowledge to industry-relevant challenges through our research partnerships with national laboratories or optional year-long placements, developing your professional skills for industry and boosting your CV with work experience.

The University has strong, established links with many national and international businesses and institutions, including:

- › Airbus
- › BAE Systems
- › Microsoft
- › Sky TV.

FACULTY OF HEALTH AND MEDICAL SCIENCES

Many of our health sciences courses offer clinical placements, allowing you to develop your knowledge, skills and practice within a healthcare setting, under the supervision of experienced practitioners. If you're working towards your first registration, you'll gain experience within the NHS. Alternatively, if you're a post-registration professional, this will be with a sponsoring organisation – your existing healthcare employer.

If you're training to be a high intensity cognitive behavioural therapy (CBT) practitioner or psychological wellbeing practitioner, you'll also complete a clinical placement. This will usually be with an Improving Access to Psychological Therapies (IAPT) service in the local area, where you'll typically be employed.

FACULTY OF ARTS AND SOCIAL SCIENCES

Whether you want first-hand experience of large-scale research in action on a four-week criminology placement or to tackle projects and challenges within an organisation while developing the latest thinking and understanding of business needs, we offer you the opportunity to gain practical experience in industry.

In the past, students have found placements with organisations such as:

- › GSK
- › Bank of Thailand
- › Pfizer
- › Legal & General
- › The National Centre for Social Research
- › Criminal justice agencies including the police.

Placement Activities
The programme provides a range of placement activities to help students gain practical experience and develop their professional skills. These include:

CAREER SUPPORT

At Surrey, we recognise that you may require tailored support both during and after your masters degree. As part of our postgraduate community, you'll be supported in a number of ways when it comes to employability.

ONE-TO-ONE CAREER SUPPORT

Whether you want to explore career options within or beyond academia, or need a bit of support writing your CV, our specialist careers consultants are here to provide impartial and confidential support.

WORKSHOPS

A variety of workshops are available to give you the information, tools and techniques to identify career options, make effective applications and improve your interviewing skills.

EVENTS

Throughout the year, we host a range of employability-focused events, including careers fairs and events, which attract a variety of employers offering graduate roles and placements. We hold sessions focused on working in the UK

and internationally, building your personal and professional network, interview skills, alumni networking, career planning, entrepreneurship and visas. There are also more specific careers events organised by departments across the University.

SURREY PATHFINDER

Surrey Pathfinder is a digital space where you can find everything from careers appointments and event bookings, to jobs listings, placements and interactive development tools.

EMPLOYABILITY AWARD

You can choose to complete the Employability Award, which gives students recognition for activities that develop employability skills. The Award will help you to prepare for entering the graduate job market and is a valuable addition to your CV.

IN-HOUSE AGENCY

Looking for extra work experience? Unitemps is the University's in-house job agency and can help you find temporary work across campus and at local companies in and around Guildford.

ALUMNI ACCESS

For up to three years after you graduate, you'll be able to get one-to-one appointments with our Employability and Careers service, as well as lifetime access to Surrey Pathfinder.

To find out more about employability and careers, visit: surrey.ac.uk/employability-and-careers

ISHAN PATIL

Data Science MSc

“Overall, the experience has been a joy. The MSc Data Science offers insights into the core subjects of data science such as practical business analytics, database systems, machine learning and data mining to name a few, which has enabled me to learn, adapt and grow. I have been able to see what goes on behind the scenes to make an industry business model run seamlessly and successfully, and which technology drives it.

The facilities at Surrey are also outstanding. The computer science lab is a world-class learning facility.”

OUR TEACHING EXCELLENCE

Our community of exceptional academics continually work towards inventive solutions, such as improving global wellbeing, creating sustainable cities, communities and economies, and connecting societies and cultures. Our leading facilities, innovative teaching and focus on applied research allows students at Surrey to make discoveries of their own.

INTERNATIONALLY RENOWNED RESEARCH

At Surrey, you'll learn from academics who are experts in their fields. Many remain active in their professions, and because they're always developing their knowledge, they'll teach you the most up-to-date information you need to know to help you get started in your career.

As a postgraduate student, you'll have opportunities to join research groups, complete a dissertation project and collaborate with research partners across the world.

OUTSTANDING LEARNING FACILITIES

We invest heavily in our learning environments to offer you the best facilities and equipment to work with. Some of our most notable include:

FACULTY OF ENGINEERING AND PHYSICAL SCIENCES

- › A £1.7 million multi-purpose 200-seater computer science laboratory
- › A fully operational pilot process plant offering a learning experience which is almost unique among UK universities
- › Air quality and geotechnics and geology laboratories, and an environmental wind tunnel in our Department of Civil and Environmental Engineering
- › A demonstrator jet engine, flight simulator, wind tunnels, and robotics laboratories in our Department of Mechanical Engineering Sciences
- › A £3.5 million refurbishment of our Department of Physics astronomy observatory.

FACULTY OF HEALTH AND MEDICAL SCIENCES

- › A Clinical Simulation Centre, home to our Immersive Learning Environment that'll transport you to the centre of clinical scenarios
- › Our £5 million psychology laboratories, including a virtual reality suite and observation labs, so you can conduct experiments using electroencephalography and more

- › A £10 million Innovation for Health Learning Laboratory, equipped with the latest industry equipment, in our School of Biosciences and Medicine
- › Our state-of-the-art vet school buildings include a Veterinary Clinical Skills Centre and one of the largest and most sophisticated pathology centres in the UK.

FACULTY OF ARTS AND SOCIAL SCIENCES

- › Our Department of Music and Media has: three professional recording studios including a concert venue, a film and TV studio, a critical listening room, five edit rooms, a Dolby Atoms Spatial Audio Studio, a Music Technology performance-workshop room, a synthesiser lab and a 24/7-access student computer lab.
- › Our Guildford School of Acting has three fully equipped theatres, 18 dance and rehearsal studios, 12 practice rooms and a Scenic Studio workshop
- › The Lakeside Restaurant is a student training kitchen and restaurant in our School of Hospitality and Tourism Management, offering immersive training in management and culinary skills
- › Our interpreting labs have the latest technology from BUK Solutions which offer ISO-certified solutions for simultaneous interpretation at multilingual events.

MEET OUR ACADEMICS

We're home to research-active staff who pursue a wide range of projects. Here are just a few examples of academics who you could learn from, and the research you could get involved with at the University of Surrey.

FORWARDING THE FRONTIERS OF NUTRITION

Dr Adam Collins is a Principal Teaching Fellow in Nutrition and has been a qualified Nutritionist for over 20 years. He's published articles in the British Journal of Nutrition, the European Journal of Clinical Nutrition and the International Journal of Obesity.

Adam teaches on our BSc (Hons) Nutrition and MSc Human Nutrition courses, sharing his expertise in biochemistry, metabolism, nutritional physiology, and sports and exercise nutrition. His current research includes exercise intensity and energy balance, intermittent fasting, meal timing and composition.

He has great industry links and runs his own private nutrition consultancy, as well as working as a Nutritional Consultant for major UK nutrition brands and start-ups. He's also an active member of the Association for Nutrition (AfN).

Adam's goal is to forward the frontiers of nutrition by applying research to a wider audience and getting better recognition for nutrition professionals.

ACHIEVING EMPLOYEE WELLBEING

Dr Shi (Tracy) Xu is a Senior Lecturer in our School of Hospitality and Tourism Management, and Programme Leader of MSc Strategic Hotel Management.

As an active human resource management and organisational behaviour researcher in the hospitality industry, Tracy's research focuses on three themes: employee wellbeing, leadership, and turnover. A few of her current projects examine employees' organisational citizenship behaviour, hospitality employees' perception of robotic technology, and how Covid-19 impacts HR in the hospitality industry.

Tracy has authored over 50 peer-reviewed journal articles and conference proceedings publications and serves on the editorial advisory boards of International Journal of Contemporary Hospitality Management and Cornell Hospitality Quarterly. Her articles have been featured in ScienceDaily, Hospitality & Catering News, Guildford Dragon, AzoRobotics, NewsWise, Gadget, News8Plus, and more.

Tracy is excited about partnering with organisations to use rigorous scientific methodology to achieve their employee wellbeing goals.

SOLVING TODAY'S AND TOMORROW'S PROBLEMS

Dr Sotiris Moschoyiannis is an Admissions Tutor and Senior Lecturer in Complex Systems and teaches at both undergraduate and postgraduate level in our Department of Computer Science.

Sparked by curiosity and the realisation that research can improve lives – whether that's having more time or a smoother journey home – Sotiris specialises in mathematical and computational techniques for analysing real world complex systems, such as transportation networks, social networks and networks in the human body. His recent work has included the Real Time Flow Project, which involved modelling and predicting flows of people and trains in an urban environment.

Through our masters courses in Data Science and Information Security, Sotiris hopes to address an urgent skills shortage within the UK, giving students the tool box of foundational and practical knowledge needed not only to solve today's problems but also tomorrow's.

STUDENT LEARNING SUPPORT

Experiencing university life is exciting, and at Surrey we do everything we can to support you throughout your time here. Whether you prefer online advice or talking to someone in-person, we've got you covered.

ONE-TO-ONE SUPPORT FROM YOUR TUTORS

Throughout your studies, you will have one-to-one support from your tutors to help with your academic, personal and professional development.

FREE DIGITAL TEXTBOOKS

We provide postgraduate taught students with free, digital copies of essential textbooks. This is part of our commitment to making university more accessible, enabling you to learn in a more digital environment.

LIBRARY

Our Library is the academic heart of our campus. You can explore hundreds of thousands of books, journals, audio and image collections, helping to empower your research.

We also have a multimillion-pound collection of online resources which can be easily accessed on or off campus.

Our Library contains study spaces to cater for all needs, including silent rooms, group areas and bookable rooms designed for collaborative group study. surrey.ac.uk/library

MYSURREY HIVE

MySurrey Hive is a place to get advice on all aspects of student life – from accommodation to finance – and information on University support services. We also have Academic Hives on campus to provide you with support related to your course. You can ask our friendly team any questions, either in-person, on the phone, via email or through our online chat service. The space is also a great place to meet friends for informal study and to socialise.

Visit us: Stag Hill campus (Phillip Marchant Building, a short walk from the Library)

+44 (0) 1483 686 868

hive@surrey.ac.uk

surrey.ac.uk/student-life/mysurrey

SURREYLEARN

SurreyLearn is an online platform that gives you access to lecture and seminar learning materials, information on your chosen course and modules, and feedback from teaching staff. You can also take part in discussion forums, quizzes, tests and online assignments.

You will be given access to SurreyLearn during registration week, once you join the University.

SUPPORT FOR DISABLED AND NEURODIVERSE STUDENTS

Our Disability and Neurodiversity team is based in the Library. If you are disabled, autistic or have a specific learning difference (such as dyslexia, dyspraxia or AD(H)D), a mental health condition, a mobility or sensory impairment, or a long-term health condition, we recommend you contact the team as soon as you can. They can advise you on the support available as well as your eligibility for financial assistance through the Disabled Students' Allowance. You can meet with a Disability Adviser confidentially to find out more.

The team can arrange for you to have adjustments to your studies, such as extra time in exams, enabling you to reach your full potential during your postgraduate studies with us.

IMPROVING YOUR ACADEMIC SKILLS

Our Academic Skills and Development department is based in the Library. Here, our team can help you with a range of academic skills, including your writing, presenting, revision and time management. They can also support your research by helping you access the right resources for your studies.

In addition to face-to-face workshops and appointments, you can find online tutorials and resources through the 'Masters Interactive' section of SurreyLearn.

NIKOLINA TOLEVA

Psychology (Conversion) MSc

I chose Surrey because it's one of the leading universities in the area, well known for its research and excellent staff. The campus has everything you need, including coffee shops, restaurants, a bookstore, computer labs, a gym and even a lake! My favourite place to study on campus is the Library – it's a peaceful, stylish, vibrant and productive workspace.

The teaching on my course is concentrated over a few days each week, leaving plenty of flexibility to organise my study schedule and family commitments. I feel positive that my course will be an excellent foundation for my second career.

LIVING AT SURREY

We want you to feel at home at Surrey, whether you're living on campus or in private accommodation. If you're moving to the UK for the first time, or want the convenience of living on campus, we offer a range of accommodation.

LIVING ON CAMPUS

Living in student accommodation as a postgraduate student is a great way to meet new people, spark friendships and get settled in as you begin this new chapter of your life.

Arranged in 'Courts of Residence' (groups of self-catered housing) and priced to suit different budgets, our accommodation has been designed to be comfortable and secure.

We guarantee accommodation if you're a new postgraduate student in your first year of study, if you apply for accommodation by the deadline and have met our allocation conditions. For more information and for full terms and conditions, please visit:

surrey.ac.uk/accommodation/applying

Our latest accommodation prices are published on our website in spring: **surrey.ac.uk/accommodation/prices-and-payment**

LIVING OUTSIDE THE UNIVERSITY

If you're thinking about living off campus, Guildford has many private accommodation options. For more information and guidance on finding a property, visit:

surrey.ac.uk/accommodation

FEEL AT HOME

Our Stag Hill campus offers a variety of facilities and places to socialise and enjoy a drink, snack or hot meal.

Enjoying all the benefits of the Courts of Residence on Stag Hill campus, our accommodation at nearby Manor Park is in an area of great natural beauty. Designed as a car-free student village, Manor Park offers a first-class learning and living environment and is close to the sport, fitness, catering and social facilities at Surrey Sports Park.

If you're looking for a more cost-effective option, you might find it at Hazel Farm, which has rooms 3km from campus and has a subsidised bus service. Residents can also park their cars there.

KEEPING YOU SAFE

Peer Supporters are available to help you settle in, make friends and keep you busy with social activities. Our dedicated team will also work with you to create a positive living experience for everyone on campus.

You can also rest easy knowing that we have 24/7 security supervision.

OUR ACCOMMODATION

We have more than 6,000 rooms of various types to suit all budgets and requirements. Rooms are listed from A to F according to price and amenities, from shared rooms to self-contained studio flats and a limited number of family flats for students with dependants.

- ▶ Our accommodation includes on-site central launderettes
 - ▶ More than half of our rooms have en-suite shower and toilet facilities
 - ▶ Manor Park, situated 1.6km away (20 minutes' walk or a short cycle ride), has over 3,000 en-suite rooms and easy access to Surrey Sports Park
 - ▶ Your rent includes utilities, broadband, cleaning of communal areas and contents insurance
 - ▶ You'll share a kitchen-dining room with other students
 - ▶ We offer communal areas, some with TVs
 - ▶ Most of our lower-cost housing is available at Hazel Farm which is located on the outskirts of Guildford
 - ▶ Most accommodation is mixed sex, but you can request to live in a single-sex flat if you wish
 - ▶ All of our accommodation buildings have secure access
 - ▶ If you have any specific requirements or need an adapted room, due to a disability or health condition, please contact our Disability and Neurodiversity team to discuss your requirements: disability@surrey.ac.uk
 - ▶ We have a limited amount of family accommodation if you would like to live with children or a partner, although we can't guarantee we'll have space available.
- To find out more, please visit:
surrey.ac.uk/accommodation/our-accommodation/family-flats

JAMES WILLSMORE

Medical Physics MSc

“All the staff on my course are extremely approachable and friendly, and I’ve never felt that I couldn’t approach them with an academic or course-related question. The external lecturers have also been very responsive, despite having a professional career outside of the University. I feel this is because all the lecturers are extremely passionate about what they do and love the opportunity to share their knowledge.

The facilities at Surrey are impressive, particularly the radiation lab which offers capabilities to conduct a wide range of radiation physics experiments such as blood labelling, thermoluminescence dosimetry and gamma ray spectroscopy.”

GET TO KNOW GUILDFORD

Just 15 minutes' walk from campus, Guildford town centre is an exciting blend of cultural, historical and modern attractions. You'll find shops, clubs, pubs and bars, as well as theatres and entertainment venues. Surrounded by stunning green countryside, you'll quickly find Guildford is also an idyllic place for instant calm.

LIFE ON CAMPUS

At Surrey, we have everything you need for your studies and beyond.

SOCIAL SPACES

As a Surrey student, you'll have access to a variety of spaces to relax or hang out with friends. MySurrey Nest is a space where you can seek solace in a calm, quiet and relaxing environment. The Snug is a bookable student space on Manor Park with an 85" TV screen and a PlayStation. Across our three sites, we also have a number of fixed barbecues which can be hired by students – the perfect place to gather outdoors and soak up the sunshine in the summer.

SHOPS AND SERVICES

Our SimplyFresh shop on campus sells local, international and organic food products, and also houses a cashpoint. Appleseed offers a one-stop shop for academic books, printing, stationery, merchandise and souvenirs.

Our job agency, Unitemps, can help you find part-time work within the University and with local businesses in and around Guildford. We've also got a post office and launderette on campus. A large Tesco supermarket is located between Stag Hill and Manor Park, which you can walk to within 15 minutes.

EATING AND DRINKING

The University has plenty of places where you can have lunch or meet friends for a coffee. On our Stag Hill campus, you can visit Starbucks, ThEATre, The Hideout, or Lakeside Coffee Shop, while Hillside Restaurant offers a range of fresh food and we have several small eateries, from Asian fusion to pizza. The campus also has its own à la carte restaurant, Lakeside, run by our very own hospitality students. Wates House, our campus bar, serves fresh seasonal food accompanied by craft beers. We also have a weekly farmers' market every Thursday at our Students' Union, selling food from local suppliers.

ART, MUSIC AND CULTURE

The University is home to a thriving arts community. Our very own Guildford School of Acting is home to some of the best professional training facilities in a UK conservatoire.

Along with our Performing Arts Technology Studios, the Ivy Arts Centre hosts an exciting programme of events featuring professional visiting artists and companies, and student performers. We also have an on-campus art gallery, the Lewis Elton Gallery, which hosts a series of exhibitions and installations.

AN INTERNATIONAL COMMUNITY OF IDEAS

We are proud to be one of the most culturally diverse universities in the UK – more than a third of our students are international, coming to us from 140 different countries.

Surrey is guaranteed to broaden your mind – your experience of another culture and a different way of thinking will help prepare you for the modern world’s globalised workplaces.

A WARM WELCOME

This may not be your first experience of university or travelling alone, but it could be your first time living away from your home country. No doubt you’re excited to arrive here and get started, so we’ll help to ensure your journey here is as quick and stress-free as possible.

Our Welcome Team can meet you at our nearest airports, Heathrow and Gatwick, on selected days. After meeting with you, they will either take you directly to your campus from Heathrow or help you onto a train to Guildford from Gatwick. Helpfully, Guildford Station is just a short walk from our Stag Hill campus.

This service is free, all you need to do is register online before you travel. Full details about airport pickups can be found at: [surrey.ac.uk/predeparture](https://www.surrey.ac.uk/predeparture)

Our International Orientation programme prepares you for the start of your studies with us, covering information about visas, working in the UK, registration and social events.

ENTRY AND APPLICATION

For details of our international student application process, please visit: surrey.ac.uk/apply/international

WORKING IN THE UK

For information on working in the UK, please visit: visas.surrey.ac.uk/visa-responsibilities

CHAT WITH OUR INTERNATIONAL TEAM

Our International Recruitment team run regular live chats, virtual exhibitions and webinars to give you all the information and support you need.

If you're interested in learning more about upcoming events, please visit our website: surrey.ac.uk/international

TAKING YOUR FAMILY WITH YOU

You can bring family members with you to the UK while you study if you meet certain conditions, such as if you're studying a full-time course, at postgraduate level or higher, that lasts a year or longer. We have a limited amount of family housing available for international students with dependants. It could be that you choose housing located off campus as an alternative. If so, we recommend that you travel to the UK alone to begin with, to find suitable accommodation and get more organised before inviting your family to join you in the UK.

LANGUAGES AND CULTURE EXCHANGE SCHEME (LACES)

Why not make the most of our friendly community of international students? You could learn a new language or further develop your skills in one you already know.

Our LACES network provides a free way for you to find people interested in learning your language and happy to teach you theirs. It's a great way to meet new people from your home country or from other parts of the world. For more information, visit: surrey.ac.uk/laces

GLOBAL GRADUATE AWARD IN LANGUAGES

If you want to improve your language skills and be recognised for your hard work, our Global Graduate Award in Languages could be for you. The programme is open to all students who study with us and you can choose from 11 different languages at various different levels. After finishing one of these free courses, you'll receive a certificate which validates your successful completion. For more information, visit: study.surrey.ac.uk/extracurricular-study

LAUREN HOBBS

Physician Associate Studies PGDip

“The teaching staff are incredible and are from a range of medical backgrounds, including qualified Physician Associates with many real-life examples and experiences to share. They’re knowledgeable, supportive and make the course enjoyable and fun. We’re also privileged to be taught by external lecturers who are specialists in the topic we’re studying at the time.

“The Physician Associate Studies course has numerous opportunities to implement your learning from the classroom to real life. Throughout the course there are numerous placements in hospitals, allowing me to gain first-hand experience and invaluable networking opportunities. The facilities at Surrey are incredible, and the practical sessions in the simulation suite have also helped me to develop my skills.”

CLUBS, SOCIETIES AND SPORTS AT SURREY

STUDENTS' UNION

The Students' Union is at the heart of our student community. Run by a team of elected students, they provide an incredible programme of activities, entertainment and volunteering opportunities.

There are over 130 sports clubs and societies, including the Postgraduate Society. Whether you want to meet others with shared interests or backgrounds, or want to try something totally new, there's something for everyone.

As the sole representative body for Surrey students, the Union gives its members a voice, as well as offering advice and support, should you need it. To find out more about how the Students' Union can enhance your university experience, visit: ussu.co.uk

EVENTS ON CAMPUS

There are many fantastic events on campus which bring together students from all different backgrounds and cultures. The Students' Union and its societies also hold several events and activities throughout the year. Find out more at: ussu.co.uk/events

EXCEPTIONAL SPORTS FACILITIES

One of the best things about sport at Surrey is that you don't have to be an athlete to get involved. We encourage you to enjoy a healthy and active lifestyle, meet new people and have fun – no matter your fitness or experience level. Our range of sports, dance and group fitness classes is one of the largest and most diverse of any UK university.

SURREY

SURREY SPORTS PARK

Surrey Sports Park is one of Europe's leading sports venues and the home of Team Surrey. Whether you join for fun, health or competition, become part of something bigger with access to all areas of our world-class facilities.

With a number of Surrey Sports Park student membership options to choose from and a community of like-minded sporty friends to make, you'll be winning before you've even laced up your trainers. As a Surrey student you'll benefit from discounted membership, giving you access to a wide variety of facilities, classes and activities, and the opportunity to join sports clubs and represent Team Surrey.

Find out more at: surrey.ac.uk/sport

TEAM SURREY

Team Surrey is at the heart of all sport and fitness at the University and offers over 40 sports clubs for you to engage with, from American football to weightlifting. Whether you're looking to represent Team Surrey and compete against other universities, or just try out new activities, you'll be welcomed into our community. To find out more, visit: teamsurrey.co.uk

PLAYSPORTS

PlaySport covers all social sport at Surrey. From casual drop-in sessions to intramural leagues, there are plenty of ways to get involved in new sports and activities.

Our SurreyMoves+ mobile app also rewards users who are active with several prizes, so be sure to download it!

CLUBSPORT

Our ClubSport programme is our weekly training sessions for those competing for the University. Each club benefits from access to Surrey Sports Park and external training venues, supported by a high-quality coaching team.

PERFORMANCE

Student-athletes competing at a national or international level are eligible for our Dual Career Programme and Sports Scholarships to help you reach your potential across both your studies and academic work.

Team Surrey is proud to also have six performance sports, which are backed by a number of professional sports partners: Swim England, Harlequins FC, Surrey Scorchers, and Surrey Storm.

YOUR HEALTH AND WELLBEING

Your physical and emotional health are important and looking after both will ensure you get the most out of university life. As a Surrey student, you'll have easy access to a number of health and wellbeing services.

We recommend that all students register with a local doctor as soon as they arrive, where you'll be able to access a number of health services. There are five local practices that cover the University campus and surrounding area.

- › Guildowns University Health Centre – located on the Stag Hill campus
- › Woodbridge Hill Surgery
- › Dapdune House Surgery
- › Fairlands Medical Practice
- › St Luke's Surgery.

You can use the NHS service on [nhs.uk](https://www.nhs.uk) or call 0300 311 22 33 for more information.

For all health advice, call 111.

FAITH AND SPIRITUALITY

Recognising the dignity of every human being, our Religious Life and Belief Centre and University Chaplaincy exists to support the faith and belief of our students. There are several places of worship on Stag Hill and Manor Park. Our chaplains are from all faiths and beliefs and offer confidential, one-to-one care.

[surrey.ac.uk/student-support/faith-and-spirituality](https://www.surrey.ac.uk/student-support/faith-and-spirituality)

THE CENTRE FOR WELLBEING

The Centre for Wellbeing offers a range of services to ensure that our students feel well and supported throughout their time at the University. They offer free and confidential advice for mental, emotional and psychological issues.

wellbeing.surrey.ac.uk/centre-for-wellbeing

PEER SUPPORT TEAM

Peer Supporters are all experienced students, fully trained to provide a non-judgemental listening and support service to all Surrey students. They are there to listen, support and guide you in any way they can to help make your university experience the best it can be!

For more information on health and wellbeing support, please visit: wellbeing.surrey.ac.uk/support-services/peer-support

YASHIKA JAIN

Digital Marketing and Channel Management MSc

During my university search, I didn't find a university that offered modules like Surrey – such as modules in international fashion marketing and luxury branding, international retailing – hence Surrey was a clear choice for me. Its masters in Digital Marketing and Channel Management is the perfect balance of theoretical and practical modules which challenge the students to learn more and more.

The campus at Surrey is huge and beautiful, it offers so much to the students. Guildford is a very friendly and diverse town so it's the best combination of country and city life.

The student diversity at Surrey made me comfortable here and I didn't feel out of place. There are so many clubs and societies, there's always something happening around which helps students interact with people outside of their course or accommodation. Lastly, London being so close to the university opens so many opportunities.

It's been the best year of my life!

SUSTAINABILITY AT SURREY

At Surrey, we're committed to sustainable research and setting ourselves ambitious targets to reduce our environmental impact.

We've signed the UN Sustainable Development Goals (SDGs) Accord to demonstrate our commitment to addressing the global challenges we face, including inequality, climate change and environmental degradation.

We are ranked 55th in the world for our contribution to the SDGs through our research, operational initiatives and local and global partnerships.

NET ZERO EMISSIONS BY 2030

We have a net zero carbon emissions target by 2030. To achieve it, we're reducing our demand, increasing on-site renewable energy generation, increasing the amount of energy purchased from clean sources, and considering how we can offset remaining carbon emissions.

REDUCING SINGLE-USE PLASTIC

Our goal is to have all staff, students and visitors use reusable cups and bottles across campus. We've installed water refill points across campus, taken a pledge to replace single-use plastic cups with plant-based options, and introduced compostable packaging across our catering outlets.

WATER

We invest in projects that reduce our water use. An on-site borehole has been created on our Stag Hill Campus to provide a clean, potable water supply of water, relieving pressure on local networks and reducing carbon emissions.

TEACHING

We are committed to nurturing our graduates as future leaders in sustainability thinking and have a strategy to embed sustainability in all our programmes by 2024.

We also offer two free extracurricular modules, the Global Graduate Award in Sustainability and the Introduction to Sustainability mini-course, so students can gain an in-depth understanding of the issues affecting our planet.

RESEARCH

Sustainability is one of Surrey's key research themes, with organisations such as our Centre for Environment and Sustainability, the Global Centre for Clean Air Research, and the Institute for Sustainability conducting vital studies in this field.

WORKING WITH STUDENTS

Our students help shape our strategies through attending working groups meetings and steering committees. We offer a wide variety of engagement options, ranging from events, societies and volunteering opportunities.

GREENER TRAVEL

50+ loan bicycles have been installed across our campuses, encouraging students to travel by bike. A bike shop and cycle parking spaces are also available.

OUR COURSES

By studying a postgraduate degree with us, you're seizing an opportunity to stand out from the crowd, realise your career potential and become part of shaping the world for the better.

STUDY OPTIONS

Our postgraduate courses offer a wide range of options. For the full A-Z list of our taught courses, their availability, length and entry requirements, please visit: surrey.ac.uk/postgraduate

Availability of all courses may be subject to demand. Many courses have additional entry requirements which may include important skills, experience or a specific undergraduate degree subject.

A number of our courses offer a Professional Training placement or study abroad option. Please note that the English language requirement may be different for this option; see the course page on our website for further details. Placements are not offered for programmes starting in February.

FEES AND FUNDING

OUR POSTGRADUATE FEES

We understand that studying a postgraduate degree is a big financial commitment and that it's important to have the appropriate funding in place. Our focus is on providing the best support that we can so you can get the most from a community and environment that could genuinely transform your life.

You will need to pay fees for each academic year or for each stage of your course.

For the most up-to-date information about fees, please visit: surrey.ac.uk/postgraduate/pgt-fees

ADDITIONAL COSTS

As well as your study fees, some of our masters programmes may require you to pay for special equipment, field courses or study periods in other countries. You can find out more about this from the appropriate department related to your selected course.

CONTINUING FEES

You might need to pay continuing fees after your course if you make use of the University's general facilities, although this doesn't apply to specialist facilities like laboratories.

Generally, our postgraduate students don't need to pay continuing fees, but extension fees may apply for certain courses. If your course requires these, the department for your course will inform you about the appropriate arrangements. (Please note that postgraduate research students are required to pay a completing status fee but this does not apply to postgraduate taught students.)

For more information, please contact:
feesandfunding@surrey.ac.uk

UK GOVERNMENT POSTGRADUATE LOANS

If you're a UK student resident in the UK, you might be able to fund your postgraduate fees with a loan from the Student Loans Company. You could borrow up to £11,836 (based on 2022 entry), with repayments calculated based on your income after graduation. For eligibility information and further details, please see:
surrey.ac.uk/pg-studentloan

SPONSORSHIP

If you're a UK student, UK research councils can provide you with a useful source of financial support should you wish to study a postgraduate research degree. Sometimes other funding methods can be provided for certain taught programmes. For more information, visit: **ukri.org**

SPONSORSHIP FROM YOUR EMPLOYER

Are you looking to study a part-time degree with us? Your current employer may be able to assist with your course fees and/or offer you flexible working hours.

NATIONAL AWARDS FOR STUDENTS OUTSIDE THE UK

A number of countries have national scholarships schemes that you could use to support your studies. For more information about the available schemes, visit the British Council website:
britishcouncil.org

BURSARIES AND SCHOLARSHIPS

For up-to-date information about scholarships and bursaries at Surrey, please visit: **surrey.ac.uk/fees-and-funding/scholarships-and-bursaries**

ON-CAMPUS FINANCIAL ADVICE AND SUPPORT

Our Student Money Advisers can answer any questions related to your finances. We want to help you make informed choices when it comes to money so that you can concentrate on working towards your ambition during your time with us.

For more information on money matters, including childcare and interest-free emergency loans, visit: surrey.ac.uk/ask

For more information about our fees and funding opportunities, please visit: surrey.ac.uk/fees-and-funding

ENGLISH LANGUAGE REQUIREMENTS

ENGLISH LANGUAGE TESTS

You'll need a good standard of English to be able to fully benefit from a postgraduate course at Surrey. If English isn't your first language, you may need to provide evidence of your ability before studying with us.

Depending on your nationality, where you studied your undergraduate degree or if you have an accepted GCSE-equivalent English language qualification, you might not need to take an English language test. To find out more about exemptions, please see: [surrey.ac.uk/apply/international](https://www.surrey.ac.uk/apply/international)

We accept a range of English language tests for our postgraduate courses, including:

- ▶ IELTS (Academic)*
- ▶ Pearson Test of English*
- ▶ Cambridge Certificate of Advanced English
- ▶ Cambridge Certificate of Proficiency in English
- ▶ Test of English as a Foreign Language internet-based test (TOEFL iBT)*
- ▶ Trinity College London Integrated Skills in English (ISE)*

ENGLISH LANGUAGE COURSES AT SURREY

Our School of Literature and Languages offers a range of pre-sessional English language courses that could help prepare you for your degree course if you don't yet have the English language skills you need. The right one for you will depend on your English language proficiency and the course you want to study.

All our pre-sessional English language courses are taught by experienced, professional tutors using up-to-date methods. Our English courses give you the chance to improve your confidence in the language and your study skills, while also making new friends and getting settled in Surrey – maximising your chances of academic and professional success.

While on a pre-sessional course, you'll have full access to all University facilities and will receive individual support from our staff, including one-to-one tutorials.

The courses last 22, 12, 8 or 5 weeks, and once successfully completed, you can progress directly on to your chosen degree course without taking any further external language tests.

For more information, visit:

[surrey.ac.uk/international/pre-sessional-english-language-courses](https://www.surrey.ac.uk/international/pre-sessional-english-language-courses)

ENGLISH LANGUAGE AND VISA APPLICATIONS

If you want to study one of our pre-sessional English language courses and also need a Student visa to study in the UK, you'll need to complete a UK Visas and Immigration Secure English Language Test (SELT) before you can join us. We don't offer these tests ourselves.

SELTs are only required for pre-sessional courses, not academic courses. Find out more about SELTs at: surrey.ac.uk/apply/international

To find out more about our English language courses, either contact our pre-sessional team at: english@surrey.ac.uk

or visit:

surrey.ac.uk/apply/international/english-language-requirements

ENGLISH LANGUAGE SUPPORT

If you need additional English language help while you study at Surrey, we offer a free English Language Support Programme.

*You must have taken this test fewer than two years before you start your course.

HOW TO APPLY

1

RESEARCH YOUR COURSE AND ENTRY REQUIREMENTS

You'll usually be expected to have achieved, or be predicted to achieve, our minimum entry requirements or above.

2

CHECK THE DEADLINE

Apply as early as possible to avoid disappointment – deadlines will be listed on the course page.

3

EXPLORE FUNDING OPTIONS

Understand all of the costs involved in your studies. You may need an offer before you can apply for funding.

4

WRITE YOUR PERSONAL STATEMENT

This must demonstrate your: intellectual ability, suitability for the programme of study, motivation to study and passion for the chosen subject.

5

COMPLETE AND SUBMIT AN ONLINE APPLICATION

You can access this through the specific course pages on our website: surrey.ac.uk/postgraduate

6

TRACK YOUR APPLICATION

Use Surrey Self-Service to track the status and outcome of your application. You'll receive an email with the details.

7

READ THE TERMS AND CONDITIONS

If your application is successful, you'll receive an offer letter. Read the terms and conditions carefully before accepting.

ADMISSIONS POLICY AND SELECTION

Admission to the University is subject to your acceptance and observance of the University's rules and regulations. You can find our full Admissions Policy at: surrey.ac.uk/pgadmissionspolicy

INTERNATIONAL APPLICANTS

If you're an international student applying to Surrey, you may need to consider:

- › Applying for a visa
- › Applying for an ATAS certificate
- › English language requirements
- › English language courses.

For more details on how to apply, please visit: surrey.ac.uk/apply/international
